

Math Words

Across

- 3. the quantity of three-dimensional space enclosed by a closed surface.
- 4. a numerical quantity that is not a whole number.
- 7. The amount of space inside the boundary of a flat (2-dimensional) object such as a triangle or circle, or surface of a solid (3-dimensional) object.

- 12. a question that can be answered by collecting data and where there will be variability in that data.
- 14. pemdas
- 15. a rate, number, or amount in each hundred.

Down

- 1. The radius times 2.
- 2. a question with multiple answer choices.
- 5. The distance around the edge of a circle.

- 6. it is not a whole number.
- 8. the chance of something happening.
- 9. make (something) simpler or easier to do or understand.
- 10. Half of the diameter.
- 11. the continuous line forming the boundary of a closed geometric figure.
- 13. a equation that only takes 2 steps to solve.
