

Mathematical puzzle

Across

3. Lines which are not equal distance from each other
 7. Lines which are equidistant from each other
 10. A polynomial of degree one
 11. A polynomial of degree four
 12. A polynomial of three term

13. A polynomial of degree two

14. Co-ordinate geometry is discovered by

Down

1. Terms which have same variable
 2. A polynomial of two term
 4. Terms which have different variable

5. A polynomial of one term

6. A branch of mathematics in which we study about figures and shapes

8. A polynomial of degree three

9. A branch of mathematics in which we study about numbers
