

Name: \_\_\_\_\_

# Mathematics Vocabulary

## Across

3. The opposite to squaring a number
4. An angle greater than 180 degrees but less than a full rotation
5. measurement of a turn
9. If you take a \_\_\_\_\_, you may be lucky
10. The sum of all numbers divided by how many there are
12. The measured distance around the outside of a shape
14. The measurement from the centre of a circle to any point on its circumference
17. Two straight lines that have exactly the same distance between them at all times
20. A part of the circumference of a circle
21. A surface of a 3-dimensional shape
23. After we round a number, the answer will be an .....
25. A number that can only be divided by itself and 1.

## 26. Opposite to 27 across

27. What you get when you put a shape in a mirror
29. What sort of number is one that has a remainder of 1 when divided by two
31. HCF
32. A 2-dimensional shape is changed due to a slide
33. At a right angle to the ground
34. Two lines at right angles to each other
35. Corners on a 3-dimensional shape

## Down

1. A 4 sided shape with all sides of equal length and all angles are 90 degrees
2. LCM
6. To turn around
7. Space covered by an object
8. Unfolded 3-dimensional shape
11. Type of triangle that has all 3 angles equal

## 13. A collection of terms

15. When two answers are the same
16. A 4 sided shape with two pairs of parallel and equal lengths
18. Type of triangle that has no sides the same length
19. A 4 sided shape with all 4 sides the same length and two pairs of equal and opposite angles
22. A five sided shape
24. Having little length
28. Across from
30. A triangle with two sides the same length
