

Maths

Across

8. $P(x)=g(x)*q(x)+r(x)$ is known as which formula

9. A proven statement used for proving another statement

10. A polynomial with 3 degree is called _____polynomial

11. A series of well defined steps which gives a procedure for solving a type of problem

12. By which method we can substitute a variable to another to find there value

Down

1. The formula for finding the roots of quadratic equations is known as _____

2. A polynomial of a 1 degree is called

3. Quadratic formula is also known as _____

4. If the lines are parallel, then the pair of equation has no solution, the pair of equation is _____

5. If lines intersect at a point gives the unique solution of the two equations, the pair of equation is _____

6. A polynomial of a 2 degree is called _____polynomial

7. All the congruent figures are _____
