

Name: _____

Date: _____

Microbiology

Across

- 1. infects bacteria
- 7. protects by ingesting
- 10. this is wipe like
- 12. DNA to mRNA
- 13. power house of the cell
- 14. Transformation, Transduction, and ...

Down

- 15. large pathogen that leaches of of host
- 2. a viruses armor
- 3. unicellular Eukaryotic organisms
- 4. polymer that makes up bacterial cell wall

- 5. Family of ss(+)RNA virus with a DNA intermediate
- 6. Named for its "hidden sporocysts"
- 8. Antibody Sandwich
- 9. created the vaccine for smallpox
- 11. infectious protien
