

Molecules and Cells Acrostic

Across

- 5. Different forms of the same gene.
- 6. Bits of DNA on chromosomes.
- 9. Characteristics that are inherited.
- 10. One parental strand of DNA is conserved in each of the new daughter DNA molecule.

Down

- 1. A 3D structure of double stranded DNA.
- 2. Two identical alleles.
- 3. Two different alleles.
- 4. The passing of traits from parent to offspring.
- 7. A physical or chemical orgin that changes the gentic material.
- 8. A change in an organism's DNA.
