

Muscle histology

Across

- 3. cardiac and smooth muscle are _____
- 6. found in the wall of the heart
- 7. type of muscle tissue that does not have striations
- 9. Less movable attachment where muscle originates

- 11. pulled towards the origin
- 13. Skeletal muscle contractions are"
- 14. connects muscle to bone

Down

- 1. Function: Maintenance of _____
- 2. ability to shorten

- 4. recoiling after being stretched
- 5. what % of body weight is skeletal muscle
- 8. function: _____
stabilization
- 10. lines within the muscle tissue
- 12. nerve fibers cause electrical _____
