

Music Appreciation

Across

1. Misspell this word and you'll end up with an old-world monkey instead of a woodwind instrument

6. Very slow, solemn tempo, appropriate for a funeral

9. Total range of an instrument

10. Also known as timbre

13. Resting place at the end of a musical phrase, or progression from a dominant chord to a tonic chord

15. According to T. Rex, you should "bang" this percussion instrument

16. A piano has over 7 of these

17. Highest female singing voice, or a NJ wise guy

20. This texture is created when a main melody is played with harmonized chords

21. Distance in pitch between 2 tones

22. The first chair violinist

Down

2. The sound at the end of 3 Down might be this

3. The strings of this heavenly instrument are plucked

4. Way chords are constructed and follow each other, or what we'd live in in a perfect world

5. Describes types, number of, and relation of sound layers

7. Second property of sound

8. Recognizable part of a song that moves in steps and leaps

11. Beat, meter, and tempo are some of the things that make up this

12. Gradually louder

14. Distance between the lowest and highest tones produced, or home for some cowboys

18. 3 or more tones sounded at once

19. Relative highness or lowness of a sound
