

Nervous System

Across

- 6.** middle layer of meninges
10. cranial nerve; hearing and balance
12. cranial nerve for facial expression
15. second cervical vertebra; allows head to move side to side
16. #1 in the image; _____ lobe
20. most superior section of vertebral column
22. lateral curvature of the spine
23. #7 in the image
24. nerve cell
26. another name for the vertebral column
27. #6 in the image
30. master gland
31. cranial nerve; taste and swallowing
32. largest part of the brain
33. innermost layer of meninges

34. outer layer of meninges

Down

- 1.** vertebral section; main job is to bear body weight
2. vertebral section; main job is to hold ribcage
3. cranial nerve for vision
4. #5 in the image
5. #3 in the image; _____ lobe
7. acts as a shock absorber to protect the CNS
8. grooves or depressions between ridges and bumps on the cerebral cortex
9. #4 in the image; _____ lobe
11. cranial nerve for smell
13. outer, wrinkly part of brain
14. muscles that help you stand up and lift things

- 17.** cranial nerve; runs down through abdomen
18. muscle group in front of spine; help us bend forward
19. contains 5 fused vertebra
21. contains 4 fused vertebra
25. hunchback
28. first cervical vertebra; allows head to move up and down
29. #2 in the image; _____ lobe
