

# Nervous Tissue

## Across

- 6.** Cells that support and bind components of the nervous tissue, carry on phagocytosis, and help supply nutrients to neurons by connecting them to blood vessels?
- 9.** When a neuron get damaged what happens?
- 10.** What is a type of neuroglia?

- 11.** Cell with cytoplasmic extensions.
- 12.** What is surrounded by the myelin sheath?

## Down

- 1.** Is specialized for release and reception of chemicals (neurotransmitter)
- 2.** What activates in order to stimulate a fight-or-flight response?

- 3.** Sensory or afferent send information from the PNS to the \_\_\_\_\_?

- 4.** PNS, Group of cell bodies
- 5.** What sends the messages in the brain?
- 7.** Basic nerve cells.
- 8.** Group of axons
- 13.** CNS, Group of cell bodies
