Date: \_\_\_\_\_

## ORGANIC CHEMISTRY CROSSWORD PUZZLE DK025

### Across

6. Positive Tollen's Test  
 7. Tertiary alcohol turns cloudy immediately in \_\_\_\_\_ test  
 9. functional group of alkene is carbon-carbon \_\_\_\_\_  
 10. A test to differentiate cyclopentane and cyclopentene that gives observation of reddish brown solution decolourised

### Down

1. In free radical reaction sunlight is required to provide energy for \_\_\_\_\_  
 2. Alcohol and ether are functional group \_\_\_\_\_  
 3. electron loving species  
 4. Organic compound which consist only carbon and hydrogen atoms  
 5. Benzene is an \_\_\_\_\_ compound  
 8. Alkanes with 1 carbon
