

Name: _____ Date: _____

Organic Molecule Examples

1. Quick, short term energy
 2. Stored, long term energy in plants
 3. Stored, long term energy in animals
 4. Make up plant cell walls
 5. Build muscle, hair, nail etc
 6. Carries oxygen and carbon dioxide on blood cells
 7. Speed up processing living things
 8. Long term energy storing and insulation
 9. Protection
 10. Makes up the majority of the cell membrane
 11. Instructions for building proteins
 12. DNA's helper
- A. Enzyme
 - B. Glucose
 - C. FATS
 - D. Ribonucleic Acid
 - E. Phospholipid
 - F. Starch
 - G. Cellulose
 - H. Structural
 - I. Oils/Waxes
 - J. Deoxyribonucleic Acid
 - K. Glycogen
 - L. Hemoglobin
