

PE and KE Review Puzzle

Across

- 6. PE and KE are types of _____ energy
- 7. the _____ an object moves the greater its kinetic energy
- 8. _____ energy's measure is determined by speed/velocity and mass
- 9. ability to do work
- 10. the higher an object, the _____ its potential energy

Down

- 1. _____ energy is stored as a result of stretching
- 2. stored; ready to be used
- 3. energy of motion
- 4. unit of measure for potential and kinetic energy
- 5. _____ potential energy is determined by height and mass
