

PROPERTIES OF SOLUTION

Across

- 2. the dissolving substance in a solution
- 3. the one that is being dissolve
- 6. solution can be separated by _____ or distillation.
- 10. solution are usually clear and _____.

- 11. solution has a uniform _____.
- 12. it is consider as the universal solvent
- 14. can be distinguished
- 15. cannot be distinguished

Down

- 1. is a homogeneous mixture that consist of solute and a solvent

- 4. is the amount of solute being dissolve in a solvent
- 5. a lot of solvent is dissolved
- 7. all solute is dissolved
- 8. two or more substances that is not chemically combined
- 9. solution can be classified as concentrated, dilute or _____.
- 13. not much solute is dissolved

Word Bank

- | | | | |
|-----------------------|-------------|---------------------|--------------|
| solvent | mixture | solution | concentrated |
| heterogeneous mixture | water | concentration | dilute |
| solute | saturated | appearance | transparent |
| unsaturated | evaporation | homogeneous mixture | |
