

Parts of a Cell

Across

- 3. Lets the plant cell have photosynthesis
- 4. The highway of the cell
- 7. give the cell energy
- 11. _____ gives the cell its shape
- 15. Digests the protein
- 16. Nucleus is the _____ of the cell

- 17. _____ makes the ribosomes
 - 18. the organs of the cell
 - 19. (Only in Plants) holds water
- Down**
- 1. in the middle of the cell
 - 2. Mitochondria is the _____ of the cell
 - 5. Cytoplasm is the _____ In the cell

- 6. gives cell protein
- 8. Lets specific things in
- 9. Nucleus is the _____ of the cell
- 10. Sends the proteins
- 12. _____ is the building block of life
- 13. The liquid substance in the cell
- 14. Makes up the genes of a person
- 20. Protects the plant cell
