

Name: _____

Date: _____

Periodic Table #4

Across

1. Has the atomic number 13
4. Last element in the row starting with carbon
5. Has a melting point of 1,167 degrees Fahrenheit
6. Has the atomic number 84
9. Has a melting point of 1,137 degrees Fahrenheit
12. Has a melting point of 85.58 degrees Fahrenheit

13. Has the symbol Mc
15. Has a melting point of 449.5 degrees Fahrenheit
18. Has the atomic number 83
19. Has the symbol Cn
20. Its neighbors are Tin and Silicon

Down

2. Has a melting point of 841.1 degrees Fahrenheit
3. The first element in row 16

7. Has the atomic number 34
8. Has a melting point of 579.2 degrees Fahrenheit
10. Has the symbol Nh
11. Has the symbol P
14. Has a melting point of 239.4 degrees Fahrenheit
16. Has a boiling point of -320.4 degrees Fahrenheit
17. Has a melting point of 313.9 degrees Fahrenheit
