

Name: _____

Date: _____

Periodic Table

Across

- 4. Number of naturally occurring elements
- 7. The last element of the 36 we learned
- 9. Atomic number is 21
- 11. Elements are sorted by groups and...
- 12. This elements symbol is Es

- 13. Element that is liquid in room temperature (in the first 36)
- 14. Atomic mass of about 48
- 15. A transition metal with 4 energy levels and 12 valence electrons

Down

- 1. Metal with the highest reactivity
- 2. Element that is in group 1A but is a gas

- 3. This element is found in bananas
- 5. Has a atomic number of 25
- 6. Non metal with the highest reactivity
- 8. Has an atomic mass of 23
- 10. Element that has 5 valence electrons and 4 energy levles
