

# Phase diagram

## Across

2. The point at which all phases coexist is the ... point
4. from solid to vapor
5. from liquid to solid
8. from vapor to solid
10. from vapor to liquid

## Down

1. Today, water at the surface of Mars cannot be
3. from liquid to vapor
6. from solid to liquid
7. The point at which water turns to vapor is the ... point
9. surface pressure on Mars is ... than on Earth
