

Photosynthesis

Across

- 2. What part of the visible spectrum is not absorbed by chlorophyll
- 7. A Product of the light reaction
- 8. A reactant in light reaction
- 10. Where does light reactions happen in the plant cell?

- 12. Another product of the Calvin cycle
- 13. What are the sacs of three disk like structures called?
- 14. What part of the cell contain chlorophyll?

Down

- 1. What is the light gathering pigments in plants?

- 3. Another product of the light reaction
- 4. Where glycosides occurs
- 5. A product of the Clavin cycle
- 6. Reactant of the Calvin cycle of
- 9. Where the Calvin cycle occurs in the plant cell
- 11. A main reactant of the light reaction
