

# Photosynthesis

## Across

6. What is the process in which glucose is broken down in the absence of oxygen?
7. What is the last step to cellular respiration?
8. What uses energy from light to fix CO<sub>2</sub> into carbohydrates?
10. What is Glucose?

## Down

1. What captures sunlight and splits H<sub>2</sub>O into O<sub>2</sub>

2. what is one of the three steps to cellular respiration?
3. Where does cellular respiration take place?
4. What are red, orange, or yellow pigments called?
5. What forms 2 more ATP with oxygen?
9. where does photosynthesis take place?
