

Photosynthesis

Across

- 3. A gas absorbed by plants during Photosynthesis**
- 4. Flattened sacs inside a chloroplast**
- 6. Trent says "_____"**
- 11. The set of chemical reactions that take place in chloroplasts during Photosynthesis**
- 12. An organism that makes its own food**
- 13. An organism that obtains food**

- 14. Where in the plant photosynthesis takes place**
- 17. Charged Battery of Photosynthesis**

- 19. Uncharged battery of Photosynthesis**
- 20. What is created during Photosynthesis besides Oxygen**

Down

- 1. A reaction that requires light**
- 2. A process in which sunlight is used to create H.E.S. and Oxygen**

- 5. The natural coloring matter of plant or animal tissue**

- 7. A green pigment**
- 8. What we breathe in**
- 9. Nicotinamide Adenine Dinucleotide Phosphate**
- 10. The supportive tissue of an epithelial organ**
- 15. The stacks of thylakoids embedded in the stroma of a chloroplast**
- 16. The plural form of leaf**
- 18. The color of grass**
