

Name: _____

Physical Science

Across

- 3.** table of elements
- 8.** push or pull
- 10.** mgh
- 11.** positive charge
- 12.** one reactant yields two or more products

Down

- 1.** two compounds react with and switch places
- 2.** comes from heat
- 4.** ability to do work
- 5.** Negative charges
- 6.** number of protons in the nucleus
- 7.** neutral
- 9.** the production of chemical compounds by reaction from similar material
