

Name: _____

Date: _____

Physics Crossword

Across

- 5. Divide by 2
- 8. Nucleons - actual mass
- 11. Combine nuclei
- 12. Decays per second
- 13. Make up nucleons and pions
- 16. Particle family
- 17. Neutron converted to proton

19. Penetrating rays produced

20. Acts in the nucleus in beta decay

22. Protons and neutrons

23. Divide the nucleus

24. Continuous fission

Down

1. Number of protons and neutrons changes

2. Transport forces

3. Redistribution of energy in nucleus

4. Equivalent to mass defect, always negative

6. Binds the nucleus

7. Explains particle families

9. Energy into antimatter

10. Protons + Neutrons

14. Alpha particle emitted

15. Number of protons

18. Unit of mass

21. Nucleus of an isotope
