

Name: _____

Date: _____

Physics Puzzle

Across

- 2. Material used in electrical wiring
- 10. The centre of an atom
- 12. Electricity that flows
- 13. Part of an atom with a positive charge
- 14. Unit of measurement for weight
- 16. Either North or South
- 17. Can be positive or negative

18. Measurement of how much electrical energy is transferred in an electrical circuit

Down

- 1. What current is measured in
- 3. A system used to multiply force applied on an object
- 4. If one bulb goes out in this circuit, other bulbs could also go out
- 5. Force/Area

- 6. The measurement of the amount of electrical current passing through a component
- 7. Magnets made mainly from steel and can't be demagnetised easily
- 8. A type of electricity in which electrons jump
- 9. A force associated with gravity and mass
- 11. Used commonly in temporary magnets
- 15. Turning forces around a point
