

Name: _____

Date: _____

Plate Tectonic Vocab

Across

- 3. What is created in a divergent boundary in between the mountains
- 7. When a plate has a convergent boundary, a _____ is created in the ocean
- 8. When the plates are rubbing against each other going in opposite directions
- 9. Underwater mountains

10. What is the former super-continent called?

- 11. Moving plates in the lithosphere
- 12. The study of rock movement due to the magnetic field

Down

1. What is it called when continents move?

2. Underwater divergent plate movement is called _____

- 4. When oceanic crust goes underneath continental crust it is called _____
- 5. When a oceanic convergent boundary plate goes into the mantle
- 6. When the plates move away from each other (makes volcanoes)
