

# Plate Tectonics

## Across

- 2.** The layer of the Earth between the crust and the core
- 4.** A Piece of Earth's Crust
- 7.** Two tectonic plates that move past each other
- 8.** Two tectonic plates that are moving away from each other
- 10.** A theory explaining Earth's crust

## Down

- 1.** Two tectonic plates colliding
- 3.** The movement of Earth's Continents
- 5.** The outermost layer of Earth
- 6.** The crust and upper mantle
- 9.** A crack in Earth's crust
