

Plate Tectonics

Across

- 2.** Line between two Boundaries
3. Grand Canyon is an example
5. Case Study of Mt St Helens
8. Where oceanic crust is being subducted

9. Caused by Earthquakes

- 10.** Christchurch in 2011
11. How many major plate tectonics are there?
12. SIAC
13. Two plates move away from each other

Down

- 1.** Movement of magma causing plate boundaries to move
4. Subduction Zone is associated
6. SIMA
7. NZ's Alpine Fault is and example
