

Name: _____

Date: _____

Plate Tectonics

Across

3. plates that are under water
4. what the convergent boundary does
8. where plates pull apart
14. study of plate movements
16. rupture in the crust
18. center of earth
19. name of land plates
20. where transform boundaries get stuck and the earth moves

Down

1. what a divergent boundary can create
2. what transform plates do
5. continent that separated
6. what continental and oceanic are
7. what the plates make up
9. small grained volcanic rock
10. boundary where plates separate

11. small area with hot temperatures
12. where the plates collide
13. created by earthquakes and measured by a seismograph
15. boundary where plates slide past each other
17. what we walk on and part of the plates
