# Plate Tectonics

## Across

- 5. Came up with the theory of continental drift
- 6. True location of an earthquake and source of seismic waves
- 8. Creation of new lithospheric crust
- 9. Divide
- 10. When one plate slides under another
- 11. Collide

## Down

- 1. Point on Earth's surface directly above the focus
- 2. Theory that today's continents were once one large land mass known as Pangaea then later separated
- 3. Break in Earth's crust
- 4. Long chain of underwater mountains
- 7. Transform
