

Plate Tectonics

Across

1. Divergent boundary is when 2 plates _____
2. Convergent forms?
7. What ocean has the main Ridges
8. Transform is when 2 plates slide _____ each other
9. Massive continent called
14. Earth quakes are from _____ plate boundary
15. Makes the crust move
16. Where is crust the oldest

17. _____ under the earths crust
 18. Convergent boundary is when 2 plates _____
 19. Divergent boundaries in the ocean forms?
 20. Where does lava come up and forms new crust?
- Down**
3. What boundaries go underneath each other.
 4. What plates rub against each other.
 5. _____ where lava forms

6. what happens to the crust at a convergent boundary
10. Where is crust the newest
11. What is the main fault in the US
12. What are the plate boundaries when the plates go way from each other.
13. _____ comes out of divergent boundaries
