

# Population Dynamics

## Across

4. A group of individuals of the same species living in a particular place
6. Organisms moving into an area
7. It does not matter how large or small the population is
8. Organisms moving out of an area
9. Has short life span and small in size
10. Can live long lives and mature slowly

## Down

1. Depends on how many organisms are in an area
2. The maximum population size an environment can support for a long period of time
3. A larger number of individuals is added to the population in each generation
5. Resources that limit the growth of a population
