

Population dynamics

Across

- 3. What causes population to decrease
- 4. Shape of exponential growth graph
- 5. Limited factor not based on how many
- 7. The increase or decrease in a population
- 8. Group of individuals of the same

- 9. Rapid increase of a population
- 10. Food , water, shelter, sunlight, nutrients, examples of what?

Down

- 1. Maximum population an area can support for a long period of time
- 2. Limiting factor base on how many organism are in an area
- 6. Shape of carrying capacity graph
