

Name: _____

Date: _____

Probability and Statistics Terms

Across

3. the range of numbers that includes the largest and smallest values

6. the set of all possible outcomes

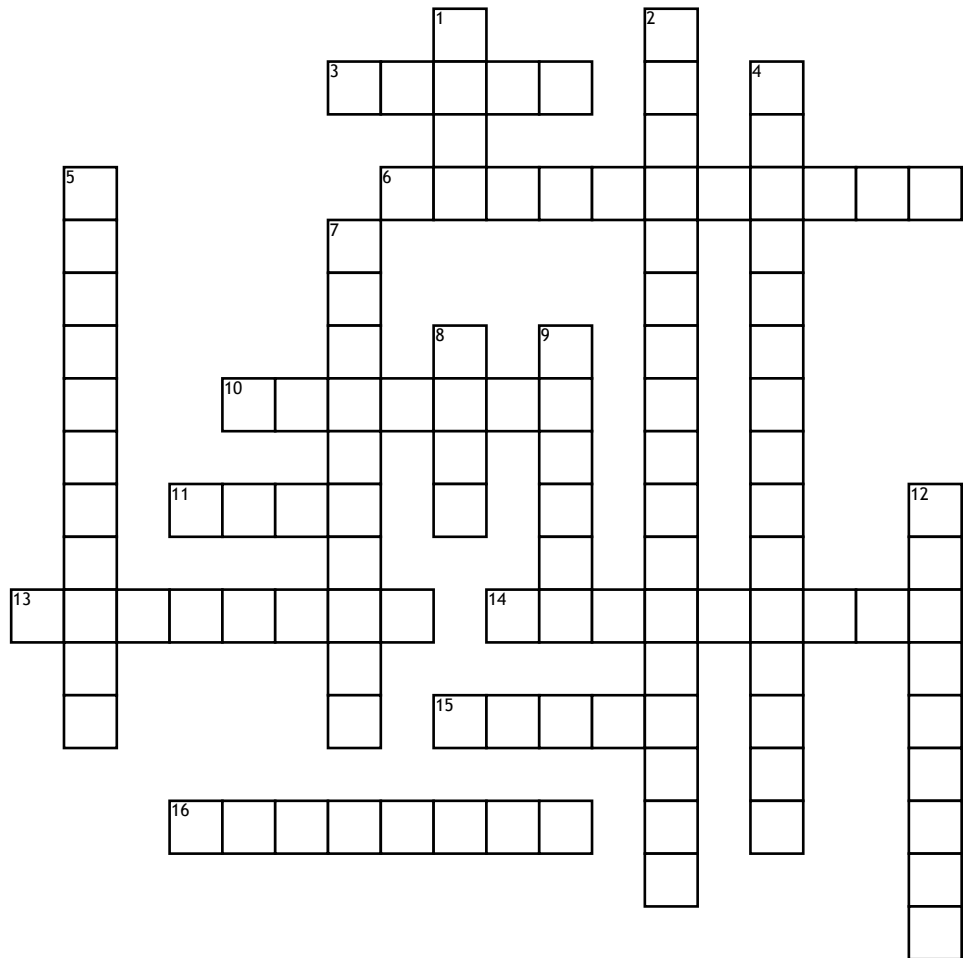

10. the result of a probability experiment

11. the sum of the data divided by the number of data

13. a graphical representation of data on a number line

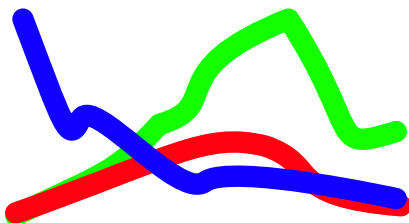

14. the scale divided into equal, non-overlapping parts

15. the difference between the largest and smallest values

Statistics

(c) 2004 Cédric BOSDONNAT

16. a graph depicting bars that represent non-continuous data

Down

1. A set of information

2. when the result of the first event does not affect the result of the second event

4. when the result of the first event does affect the result of the second event

5. the ratio of the number of successful outcomes to the number of possible outcomes

7. data that is unbroken and numerical

8. the data that occurs most

9. the middle data point when the data are in order

12. a bar graph representing continuous data; bars touch
