

Name: _____

Date: _____

Protein structure

Across

2. A repeating coil

9. Do not tend to form links that will create a protein network

10. Refers to the three dimensional structure of an entire amino acid chain of a protein molecule

11. Found in milk

12. The order the amino acids occur in the chain

Down

1. Refers to the shape of sections of the amino acids chain

3. Does not have a specific shape

4. Carry cholesterol in the blood stream

5. Much like paper fans

6. Are usually made from helix shaped structures

7. Carries oxygen in the blood

8. Found in egg whites
