

Quadratic Formula

Across

- 3. Solutions of a Quadratic function are called...
- 4. A quadratic equation where the degrees and coefficients are in order
- 7. Highest or lowest of the graph
- 8. The parabola the opens downwards has a _____ Value.
- 10. A set of all possible y-values

- 11. The last step to factor a quadratic equation
 - 12. A set of all possible x-values
 - 13. The y value where the parabola intersects the y-axis
- Down**
- 1. Vertical line that divides the quadratic function evenly
 - 2. A form where equation is completely factored

- 5. A quadratic equation that identifies the function's vertex
- 6. graph of a quadratic function
- 9. The parabola that opens upwards has a _____ value
