

Quarks! By: Reagan and Holly

Across

1. building blocks of quarks
5. different types of quarks are called
7. contains protons and neutrons
8. antiquark-quark complex
9. protons and neutrons are in this category
10. contains two up quarks and one down quark

Down

2. mesons and baryons are in this category
3. won Nobel Prize for quarks classification
4. contains two down quarks and one up quark
6. elementary particle that constructs matter
11. largest quark
