

Renewables

Across

3. What do we need to power our homes?
5. What do we call those big white fans that get energy from the wind?
7. What do we call energy from movement?
9. Where does most of our electricity come from?
10. What do we use to collect energy from the sun?

Down

1. What do we call the energy we get from the sun?
2. What do we use for power when we make a circuit?
4. What do we call energy from heat?
6. What do we use to help electricity flow around a circuit?
8. What type of energy do we get when we burn natural waste?
