

Risk Management

Across

2. Processes and procedures that regulate, guide, and protect an organisation
3. Integrated and joined up approach to managing risk across an organisation and its extended networks
4. Process of planning for disasters and having a way to lessen negative impacts
7. The amount and type of risk that an organisation is willing to take in order to meet their strategic objectives
8. Process of determining risks that could potentially prevent the program, enterprise, or investment from achieving its objectives

9. An informed conclusion or resolution reached after consideration and assessment of the potential pitfalls and upsides
11. Well-founded standards of right and wrong that prescribe what humans ought to do, usually in terms of rights, obligations, benefits to society, fairness, or specific virtues
12. Values, beliefs, knowledge, attitudes and understanding about risk shared by a group of people with a common purpose

Down

1. Structures and processes that are designed to ensure accountability, transparency, responsiveness, rule of law, stability, equity and inclusiveness, empowerment, and broad-based participation
5. Taking or being assigned responsibility for something that you have done or something you are supposed to do
6. Quantifiable measure that is used to track and assess the status of a specific business process
10. The risk of depending on a system or system elements which exist in or intermittently have a presence in the Internet
