

Scavenger Hunt -- Happy Mole Day!! Form: A

Across

- 3. Something that contains Acetone (CH₃COCH₃) It is used for cleaning tools used with it, and volatile components of glue/paints
- 5. Something that contains Silicon Dioxide (SiO₂) is used to make concrete, for road construction, for mixing with asphalt, as construction fill, and in the production of construction materials like concrete blocks, bricks, and pipes.
- 6. Something that contains Magnesium Silicate (Mg₃Si₄O₁₀(OH)₂) is a soft, white powder for skin care.
- 7. Something that contains NH₃ (Ammonia + Detergents) Used to clean Glass.
- 9. Something that contains Tungsten (W) And through which an electric current is passed.
- 12. Something that contains Acetic Acid (5-20%) - CH₃COOH
- 16. Something that contains -- C₁₀H₁₆O (Terpenoid).. Is a waxy, white solid with a strong aromatic odor.
- 19. Something that contains Vitriol (Sulphuric Acid) -- H₂SO₄; used in lead and acid ____ for cars.
- 20. Something that contains Phenolic Aldehyde (C₈H₈O₃) primary component of vanilla bean extract
- 21. Something that contains Kerosene, which is a combustible hydrocarbon liquid widely used as a fuel in industry and households.
- 22. Something that contains CaCO₃ (Calcium Carbonate)... And is Edible.

- 24. Something that contains Lactic Acid (CH₃CHCO₂H) or lactose, something that can be drank.
 - 26. Something that is C₆H₁₂O₆
 - 29. Something that contains - H₃BO₃ (Boric Acid)
 - 31. Something that contains Magnesium Sulfate MgSO₄ * 7H₂O used to ease all kinds of aches and pains.
 - 32. Something that contains Hypochlorous Acid (HClO) or in some cases Sodium Hypochlorite (NaClO)
- Down**
- 1. Something that contain Ethyl Alcohol (C₂H₆O); health care hand alcohol or alcohol hand antiseptic agents, that are antiseptic products used to avoid transmission of pathogens
 - 2. Something that contains Citric Acid (C₆H₈O₇) and Ascorbic Acid (C₆H₈O₆) and it is something that can be drank and supplies Vitamin C.
 - 4. Something that contains Isopropyl Alcohol (C₃H₈O) used to clean glasses.
 - 8. Something that contains Al, can be used to cover food items and etc.
 - 10. Something that contains Sodium Lauryl Sulfate (NaC₁₂H₂₅SO₄); It is an anionic surfactant used in many cleaning and hygiene products.
 - 11. Something that contains Sucrose -- C₁₂H₂₂O₁₁ (Table ____)
 - 13. Something that contains NaCl

- 14. Something that contains CO₂ (Solid) The carbon dioxide gas is pressurized and cooled to form liquid CO₂.
- 15. Something that contains Ethanol - C₂H₆O
- 17. Something that contains Carbon (C) is a lightweight, black residue, consisting of carbon and any remaining ash.
- 18. Something that contains NaHCO₃
- 23. Something that contains Calcium Oxide (CaO)
- 25. Something that contains Calcium Carbonate (CaCO₃) and used for Digestion complements.
- 27. Something that contains Ascorbic Acid (C₆H₈O₆) is a water-soluble ____ that is used for Dietary Supplement.
- 28. Something that is H₂O
- 30. Something that contains -- CaCO₃ (Calcium Carbonate)
