

# Science 7th Grade Genetics

## Across

5. What is transfer ribonucleic acid?
8. What is a double-strand of molecules made of DNA?
9. What is the addition of extra DNA or RNA into a section of genetic material?
10. What is ribonucleic acid?
11. What is messenger ribonucleic acid?

## Down

1. What is the action of replacing someone or something?
2. What is deoxyribonucleic acid?
3. What is the changing of the structure of a gene?
4. What are the building blocks of the DNA?
6. What is the loss or excision of a section of genetic code?
7. What is a complex molecular machine found within all living cells?
