# Science Project

## Across

4. The equation of force equals mass times acceleration under the second law

7. A force that causes a moving object to slow down when it touches another object

8. Two forces acting in opposite directions on an object with equal size

9. A measurement used for describing force

10. Is part of Newtons third law of motion

## Down

1. Causes a change in motion of an object, it causes acceleration

2. The rate at which an object changes speed or direction

3. Is a property of matter

5. A push or a pull on an object

6. Combination of all forces on an object
