

Name: _____ Date: _____

Science Quiz

1. Contain organelles
 2. Harvests the energy of sunlight
 3. Produces energy from a chemical fuel
 4. Helps support and protect the cell
 5. Separates and protects the cell from its surroundings
 6. Clean up the cell
 7. The sites where proteins are assembled
 8. Contains nearly all of the cells DNA
 9. Processes and transports proteins and macromolecules
 10. Special enzymes may attach carbohydrates or lipids
 11. Many cells store materials in saclike structures
- A. Ribosomes
 - B. Cytoplasm
 - C. Lysosomes
 - D. Golgi apparatus
 - E. Cell membrane
 - F. Cell wall
 - G. Mitochondria
 - H. Vacuole
 - I. Chloroplast
 - J. Nucleus
 - K. Endoplasmic reticulum
