# Science Vocab

## Across

- 3. The ability to be dissolved
- 5. What is dissolved into the solvent
- 6. The measure of the amount of matter in an object
- 7. A chemical reaction where heat is absorbed
- 8. The temperature at which a liquid changes to a solid

- 10. Phase change from a gas to a solid

## Down

- 1. When heat is given off in a chemical reaction
- 2. A physical change of a gas to a liquid
- 4. The physical change of a solid to a gas
- 9. The simplest substance, can't be broken down
