

Name: _____ Date: _____

Science Vocab Match

- | | |
|--|---------------------|
| 1. peanut shaped/ breaks down sugar | A. nuclear membrane |
| 2. outer surface layer/ made of cellulose | B. flagella |
| 3. this synthesizes proteins | C. cytoskeleton |
| 4. numerous, but short | D. cilia |
| 5. large, oval; holds DNA | E. mitochondrion |
| 6. this strengthen cells and maintains the shape | F. vacuole |
| 7. this surrounds the nucleus/ double membrane | G. chloroplast |
| 8. functions of cell parts which controls support | H. cell wall |
| 9. fluid-filled sacs | I. cytoplasm |
| 10. few in numbers, but is long | J. ribosomes |
| 11. clear, thick, and jellylike material (cytosol) | K. nucleus |
| 12. green, oval containing chlorophyll | L. cell membrane |
