

Science project

Across

1. The pigment in skin
5. First cloned mammal
6. Developing human
9. The man who invented a square to check the possibility of a trait
10. The study of heredity
11. Method of reproduction plants use

13. When an organism has little melanin
14. Making more of an organism
16. Strong gene
17. An egg where the sperm has gotten in
18. Weak trait

Down

2. Found in nucleus

3. Trait you see
4. Fancy way of saying trait
7. Trait
8. What reproduction method humans use
12. Passing a trait from a parent to a child
15. A duplicate of an organism
