

Science vocabulary

Across

- 4. Ratio of the output force to the input force
- 10. A combination of two or more simple machines
- 11. The ability to cause change

Down

- 1. Energy that is due to to the gravitational forces between objects
- 2. Energy that is stored by compressing or stretching an object

- 3. Energy that is due to chemical bonds
- 5. A machine that does work with only one movement of the machine
- 6. Energy that is stored due to interactions between objects
- 7. Energy due to motion
- 8. The ratio of input work to output work
- 9. Force applied through distance
