

# Sights in Djibouti

## Across

1. These mountains are held in the most vegetated area in Djibouti. Here is where Djibouti's only national park stands.
2. A place where sea animals are exhibited. Djibouti's \_\_\_\_\_ displays the great animals of the Red Sea.
5. A muslim place of worship on the eastern coast of Djibouti. This particular mosque has intricate patterns and glass planes along the interior walls.
10. A straight located between Yemen and Djibouti. Its connects the Red Sea to the Gulf of Aden.
11. The highest peak in the country. This volcano last erupted, before the holocene era.

13. A large body of water surrounded by land. \_\_\_\_\_ is the world's saltiest lake, outside of Antartica.

14. A large body of water surrounded by land in between the border of Ethiopia and Djibouti. This is where they filmed the original "Planet of the Apes" movie.

15. A dry area of land in north western Djibouti. 90% of Djibouti is covered by the \_\_\_\_\_.

## Down

3. This beach is located on the eastern coast of Djibouti. The \_\_\_\_\_ lets you go snorkeling and see an array of sea life. (clown fish, barracuda, corral, octopus, etc.)

4. A sanctuary for wildlife. Djibouti's \_\_\_\_\_ allows you to pet the cheetahs, ox, and other animals.

6. A mosque located in Djibouti City. This mosque was built in 1906 by Haji Hamoudi.

7. Islands off the coast of Djibouti. These islands have many places where you can go diving, snorkeling, and fishing.

8. The capital and largest city of Djibouti. \_\_\_\_\_ holds 620,000 inhabitants, which is 70% of the population itself.

9. A deep inlet of the sea, in central Djibouti. The \_\_\_\_\_ is the richest area in the world for coral and fish.

12. The outline of the coast. Djibouti's \_\_\_\_\_ has over 200+ species of coral.
