

Slope

Across

- 2. line which runs left to right across the page
- 4. the point where a line intersects
- 5. lean or turn away from a given plane or direction
- 6. a line that is up and down is
- 9. can be negative, positive, undefined, or zero
- 10. a line that goes side to side is

- 12. if they are not negative they are
- 16. the pairs of numbers which specify the position or location of a point or of an object.
- 18. number that is less than zero
- 19. middle of a grid
- 20. equation to find slope

Down

- 1. horizontal line that make up the quadrants

- 3. y in the equation is
- 7. the point at which the line crosses the x-axis
- 8. line is one which runs from up and down the page
- 11. the vertical line that makes up the quadrants
- 13. m represents what
- 14. what u use to plot lines
- 15. an exact position or location on a plane surface
- 17. used to find the slope of a line
