

Name: _____

Social Studies Vocabulary Crossword

Across

2. land that is low or level, in comparison with the adjacent country
5. a body of water forming an indentation of the shoreline, larger than a cove but smaller than a gulf.
6. a portion of an ocean or sea partly enclosed by land.
7. a circular container with a greater width than depth
13. the meridian running through Greenwich, England, from which longitude east and west is reckoned.
15. the great circle on a sphere or heavenly body whose plane is perpendicular to the axis, equidistant everywhere from the two poles of the sphere or heavenly body

16. a representation, usually on a flat surface, as of the features of an area of the earth or a portion of the heavens, showing them in their respective forms, sizes, and relationships according to some convention of representation:
17. a piece of land jutting into the sea or some other large body of water
18. toward or in the higher part of a stream; against the current.
20. the land immediately adjacent to the sea

Down

1. the sensation produced by stimulation of the organs of hearing by vibrations transmitted through the air or other medium
3. the bed of a stream, river, or other waterway.
4. a natural elevation of the earth's surface, smaller than a mountain.

8. a high steep face of a rock
9. a natural stream of water of fairly large size flowing in a definite course or channel or series of diverging and converging channels
10. a land formation, less extensive than a plateau, having steep walls and a relatively flat top and common in arid and semiarid parts of the southwestern U.S. and Mexico
11. a natural elevation of the earth's surface, smaller than a mountain.
12. a body of water forming an indentation of the shoreline, larger than a cove but smaller than a gulf.
14. a body of fresh or salt water of considerable size, surrounded by land
19. the salt waters that cover the greater part of the earth's surface
