

Solder Vocab

Across

2. A shaft with one or more cams attached to it
 4. Metal allow used to join electrical components
 9. A rod operated by cams that open and close the valves in an internal combustion engine
 12. The result of this is smooth
 13. A rod connecting two metal parts
 15. A generator that produces an alternating current

16. Cleaning the tip and coating with solder

17. Single belt used to drive multiple devices
 18. A Piston chamber in a steam or internal combustion engine
 20. Result of not enough heat
Down
 1. Device incorporated in the exhaust system of a vehicle
 3. An unwanted connection
 5. Heating device aiding diesel engine starting
 6. 60% tin and 40% lead

7. A ring on a piston sealing the gap between the piston and cylinder wall
 8. Cylindrical coil of wire acting as a magnet
 10. The process of cleaning rosin
 11. It is not hot enough to evaporate
 14. Metal chain that drives the camshaft
 19. Cleaning agent
